

# BRINGING YOU A CHAT BASED, VOICE & VIDEO ENABLED WORKPLACE

Microsoft Teams brings chat, content, people and tools together, all in one hub, wherever you are.

Communicate in the moment and keep everyone in the know. Chat in teams, privately one-on-one or in groups. Audio and video calls are just a click away and notifications and chat history ensure everyone is kept up to date. Access Microsoft Teams on any device with confidence knowing it's been built with enterprise-level security from Office 365.

### A Hub for Teamwork and collaboration

Give your team access to the information they need, right in Office 365. Chat, content and tools are all in the team workspace. File Storage, Channels by project or by team, SharePoint, OneNote and more!

### Customize for each Team and content needs

Tailor your workspace to include the content and capabilities your team needs every day. Tabs and Connectors provide quick access to frequently used documents, websites and 3rd party apps.

**70%**

of Skype for Business enterprise customers are using Teams.

**3 MILLION**

Teams have been created of the first year of release.

# The POWER of TWO

Secure communication anywhere, anytime, with any device. Combined with an intuitive interface for a short adaption and learning curve, Microsoft Teams is a necessity for any size business.

## Fully integrated within all of the Office 365 Ecosystem

Microsoft Teams fully integrates with Microsoft Outlook email and calendars, SharePoint, the Microsoft Office suite, CRM software and a variety of other services for maximum convenience and efficiency.

## Secure, Reliable and fully Customized Solution

Combined with NuWave's enterprise voice PTSN calling and Microsoft Teams IM, presence, audio/video conferencing, web collaboration, and screen sharing, Unified Communications just experienced a comprehensive evaluation of progression.

## A Complete and Seamless Unified Communications Solution

Microsoft Teams delivers a one-stop platform backed by the expertise and resources of a global partner, empowering you to develop a centralized strategy for secure, seamless Unified Communications.

Combining Microsoft Teams and NuWave's world class, carrier-grade network guarantees excellent communication inside and outside your organization.

Microsoft Teams, the hub for teamwork in Microsoft 365, lets you build a team environment dedicated to that project, campaign, or department, enabling the team to communicate in real time, make fast decisions and share content as a group. It cuts across organizational boundaries by allowing private chats or group conversations take place from anywhere and across mobile, desktop or browsers. The work that traditionally required an in person meeting happens right in the hub—through chat, calls, smaller group video conferences, and shared files—faster than before and from virtually anywhere.

Eliminate the need for on-premise PBX hardware and avoid costly capital expenditures. The quick deployment time for NuWave's Teams infrastructure translates into reduced time to market and enables you to benefit from the latest technology with predictable, fixed monthly OpEx costs.
