

PICK YOUR POWER™ for

Thank You for your interest in NuWave NuTeams Microsoft Teams & Office 365 Solutions. We are voice experts & look forward to providing you an exceptional Teams experience.

We offer TWO different Microsoft Teams Solutions

PICK YOUR POWER™:

NuTeams Voice stand alone is a per user calling plan to be used with your existing MSFT tenant Enterprise, Teams, and Phone System licenses. NuWave will provide you detailed voice routing power shell configuration instructions required to utilize this service for PSTN calling.

NuTeams Voice UCaaS provides each user the above calling plan **AND** the required O365 licenses **AND** NuWave will complete all required voice routing configurations for your tenant & users.

--OR--

NuTEAMS DIRECT ROUTING SIP TRUNKS. Usage based Direct Routing is a capability of Phone System in Office 365 to help you connect NuWave TLS/SRTP certified SIP trunks to Microsoft Teams. In the simplest deployment model you use NuWave NuTeams Direct Routing MSFT certified SIP Trunks with a MSFT certified Session Border Controller (SBC) to connect to Microsoft Teams and Phone System. Users across your organization share the SIP Trunks & consumable minutes.

Why NuWave

- Security: TLS/SRTP encryption included.
- Reliability: 7+ years without a customer facing outage. Geo Redundant, 100% fault tolerant network.
- We are voice experts!
- World Class & Carrier Grade but small enough to provide you personal white glove service.
- DID's included at no additional charge.
- Monthly Billing. No need for expensive communication credits pre-payment. No Interruption of services as we offer post pay for consumable services.
- No hidden international call expense gotcha's.
- 50% less than MSFT calling plan & we only bills for outbound calls, inbound are unlimited.
- 30 day free trial of O365 plans

Reach our Microsoft Teams SME at teams@nuwave.com or you may contact our Microsoft Teams Program Manager, Gary Woods, directly at (702) 960-0455 or garywoods@nuwave.com.

Respectfully,
Your NuWave Team
